Actress Laurence Iseli performs during a rehearsal of the musical 'Robots' at the Barnabe Theatre in Servion, near Lausanne, April 22, 2009. The musical tells the story of a man in self-imposed exile who lives with three robots (a butler, a pet and a dancer) and who is facing a visit from a woman who represents his last link with the outside world. The three automatons were developed by a spin-off from the EPFL called BlueBotics and are able to act autonomously and interact with the two actors and the set. The musical will have its world premiere May 1 and will play until May 17, 2009. REUTERS/Valentin Flaureau (SWITZERLAND ENTERTAINMENT SCI TECH ODDLY)
